Experience

Software Development Engineer Intern, Amazon – Bellevue, WA June 2024 – Aug 2024

- Designed and implemented a service where non-technical users could update business logic, and deploy those changes independent of code deploys
- Decreased latency of configuration deployments from 500ms to 10ms.
- Integrated user feedback by designing a version control protocol

Software Development Engineer Intern, Amazon – Boston, MA June 2023 – Aug 2023

- Designed a REST API that would allow non-technical users to resolve anomalies in data processing
- Eliminated manual dependency on our team to process downstream requests

Software Development Engineer Intern, Amazon – Seattle, WA June 2022 – Aug 2022

- Implemented a React user interface for my team's service
- Provided access to all our teams APIs for use by non-technical users
- Designed integration with REST APIs for scalability and templates for easy development of new pages

Software Engineer Intern, UtilityAPI – Oakland, CA June 2021 – Aug 2021

- Designed and implemented a dashboard to track key business metrics for a clean energy startup
- Lowered costs by tracking number of refunded customers and reasons for the refunds
